

Tre Pharm
për shëndetin tuaj

TREPH

Investment from Tregtia

- Company from 1990
- Leader in Kosovo for residential buildings
- 340 employees directly and more than 250 as subcontractor
- Unique selling system of apartments
- Installing operations for new branch in Germany

www.trepharm.com

Why Kosovo

- Attractive Government policy for investment
- Country under development
- Improving infrastructure for easy access to regional states
- Young population (40% unemployment)
- Highly educated , skilled and motivated workers

Choosing Pharmaceuticals

- Non existent local pharmaceutical industry
- Non existing specific modern facilities in the region
- Bridge from East to EU and USA
- Increasing demand of generic products worldwide

Trepharm

- The project implementation has started in 2008.
- Technical and Professional Support from Cipex Inc USA
- Systems used in this pharmaceutical production facility completely fulfill all standing EU GMP and US FDA regulations.
- The “heart” of the production units – Clean Rooms and Ventilation system is implemented by GEA Klimatechnik GmbH Austria and BMS by Kieback & Peter – Germany
- Special care for environment – solar panels, waste water treatment etc
